INVITATION for 2nd In-house Exhibition 2013

LINSINGER Sawing- and Milling Machines in ACTION!

» Exposed Machine Types

Plate Edge Milling Machine PFM 75/800LL (for stainless steel)

Invitation for 2nd In-house exhibition

Dear Ladies and Gentlemen!

A lot of costumers visited our 1st In-house exhibition in Januray 2013.

In response to the high level of interest in our products we would like to extend a cordial invitation to inspect our Machines in the factory prior to dispatch.

SEEING IS BELIEVING: See how LINSINGER will benefit your productivity and lower your running costs.

We present you system solutions, up-to-date technologies and new trends for your production. Experts are available to answer your special questions.

The exhibition is open from June 3rd - 27th.

Are you interested?

Just indicate your expected arrival via e-mail (info@linsinger.com) or call us (0043 7613 8840 114)

The whole LINSINGER-Team is looking forward to offering a warm welcome.

See you soon in Austria,

Hans Knoll
CEO

LINSINGER Austria

A lot of machines to see at LINSINGER

» Exhibited Machine types

Plate edge milling machine PFM
– Large tube mills

Increased production through simultaneous welding edge preparation

Strip edge milling machine BFMK
– Longitudinal tube mills
– Spiral tube mills

Payback period < 1 year

Pipe Beveling Machines RFM
– Petrochemical Industry
– Pipelines

Higher output through beveling simultaneously on both ends

Circular sawing machine KSA
Forging mills, steel mills, tube mills, automobile component manufacturers

Shining clean cut surface

Rail sawing and drilling machines LSB
– Rolling, welding, superstructure and switch mills

Cycle time: 30 seconds
One saw cut and 6 holes drilled, for rail type UKC 60

Stationary rail head milling machines SKF
– For rail reprofiling

Double life time

We look forward to your visit
